Partnership connects Expensify customers with VAT IT's global VAT reclaim and e-invoicing solutions

SAN FRANCISCO--(BUSINESS WIRE)--May 21, 2026-- Expensify, Inc. (Nasdaq: EXFY), the easiest way to manage expenses, corporate cards, and travel, today announced a new integration partnership with VAT IT, a global leader in VAT reclaim services. The integration enables Expensify customers to streamline VAT recovery processes by automatically syncing eligible expense data with VAT IT, reducing manual work and helping businesses recover more from international business spend. This partnership expands Expensify's global capabilities, helping the company better serve customers in Europe and Canada, where VAT reclaim services are a key component of modern expense management.

As part of Expensify's growing integrations ecosystem, the partnership gives customers access to VAT IT's global VAT reclaim services and broader indirect tax compliance solutions, including e-invoicing capabilities. Through the collaboration, Expensify customers can more efficiently identify VAT reclaim opportunities, centralize supporting documentation, and simplify international tax recovery workflows across multiple jurisdictions.

The relationship also supports future opportunities around embedded and white-label VAT reclaim experiences for Expensify customers, helping businesses better manage global spend and compliance requirements within their existing expense workflows.

"Our goal is to help customers reduce friction across every part of the expense and travel workflow," said Nick Tooker, Head of Partnerships at Expensify. "By adding VAT IT to the Expensify integrations ecosystem, customers can more easily access VAT reclaim services and improve visibility into international business spend."
